

Service & Warranty

UNPARALLELED PERFORMANCE GUARANTEE

Green Convergence offers comprehensive Operation and Maintenance (O&M) services that go far beyond the coverage provided by the panel manufacturer's warranty. We maintain the confidence that your equipment will provide a reliable supply of power for years to come.

In addition to a 25-year panel power warranty, Green Convergence offers the following protection for your solar investment:

- Weekly monitoring and a monthly report of estimated/promised production versus actual production
- Production Guarantee for 20 years with a dollar pay-out if we underperform
- Annual panel washing to keep production at optimal levels.
- Annual inspection to make sure system is working properly – also benefits insurance policy to make sure there are no electrical issues
- Customer service available for any issues that may arise
- Covers labor costs for any solar maintenance work required

What sets our service apart from other solar providers is the quality of workmanship. That means each install and any needed repairs are handled by our technicians quickly and correctly. Peace of mind comes from knowing that your panels will perform according to their production estimates over time.
